Portfolio

Summary

Detail-oriented Business/Implementation Analyst with hands-on experience managing end-to-end client implementations, stakeholder communication, and requirement documentation (BRD/SRS). Skilled in SQL, Power BI, Python, and API tools (Postman, webhooks, JSON) for data validation, system integration, and reporting. Combines strong client-facing project execution with a growing data analytics skill set – including dashboarding, data modeling, and forecasting – with a long-term interest in advancing toward Machine Learning and predictive analytics.

Education

VSIT College

Master of Science in Data Science & AI – Pursuing

2026 – 2028

Mumbai, Maharashtra

Guru Nanak Khalsa College

Bachelor of Computer Science (TYBSc)

2023-2026

Mumbai, Maharashtra

I.E.S Indian Education Society

Primary and Secondary Schooling

2022

Mumbai, Maharashtra

Experience

Implementation Analyst Intern

Apr 2026 – Current

Uknowva HRMS – Full Time

Business Analyst

- Managed end-to-end client implementation of HRMS solutions, configuring modules (payroll, attendance, leave, onboarding, etc.) based on individual client requirements
- Led client calls to gather, clarify, and finalize business requirements, acting as the primary point of contact through the implementation lifecycle
- Authored BRDs and SRS documents from scratch based on client discussions, translating business needs into functional and technical specifications for the development team
- Performed API testing and validation using Postman to verify integration endpoints before deployment
- Configured and tested webhooks to enable real-time data sync between the HRMS platform and client/third-party systems
- Wrote and optimized SQL queries to validate data migration, troubleshoot issues, and support reporting needs
- Worked with JSON payloads for API requests/responses and data mapping during system integration

Power BI Expert Intern

Feb 2026 – Mar 2026

Microsoft Elevate – Remote Internship – 4 Weeks

Power BI Expert

Internship Completion Certificate

- Built interactive Power BI dashboards and reports to visualize key business metrics, enabling data-driven decision-making
- Performed data cleaning, transformation, and modeling using Power Query and DAX to prepare raw datasets for analysis
- Designed relational data models by establishing relationships between multiple tables for accurate reporting
- Created dynamic visualizations including KPI cards, slicers, and drill-down reports to improve stakeholder reporting

Data Analyst Intern

Aug 2025 – Jan 2026

Yadgreen India – Remote Internship – 8 Weeks

Business Analyst

Internship Completion Certificate

- Completed an 8-week Data Analytics internship on a Smart City Traffic Management project focused on improving urban mobility through data-driven insights
- Analyzed and transformed real-world traffic datasets, ensuring data quality through cleaning, preprocessing, and data modeling techniques
- Designed and implemented a scalable star schema to support efficient reporting and analytics
- Developed interactive Power BI dashboards to visualize traffic patterns, trends, and KPIs, enabling clearer understanding of traffic flow and performance metrics

- Applied time-series forecasting techniques to identify traffic trends and generate predictive insights supporting smarter urban planning and decision-making

Assistant Cultural Leader

May 2024 – Apr 2025

*Guru Nanak Khalsa College
Certificate / Appreciation Letter*

Nazrana Fest

- Co-managed the college’s annual cultural fest, overseeing planning and execution of multiple events for the entire student body
- Coordinated cross-functional student teams to handle logistics, scheduling, and on-ground execution across all fest events
- Managed event budgets, allocating resources efficiently across activities while ensuring cost control
- Represented the college at cultural events hosted by other colleges, building inter-college relationships and showcasing institutional talent

Technical Skills

- **Languages & Tools:** Python, SQL, Power BI, Tableau, Advanced Excel, Postman
- **Technologies/Libraries:** Machine Learning, Data Cleaning, Data Visualization, NumPy, Pandas, Matplotlib, JSON, Webhooks
- **Soft Skills:** Stakeholder Management, Critical Thinking, Data Storytelling, Team Collaboration, Adaptability & Time Management

Projects

Manager Sales Data Dashboard | *EXCEL* [Project Link] **August 2025**

- Developed an interactive Excel dashboard to analyze sales, profits, and regional manager performance, consolidating KPIs such as revenue, profit, and customer retention into a single view.
- Identified unprofitable product categories and quarterly sales drops, providing actionable insights to enhance target achievement and customer acquisition.

Coffee Shop Sales Dashboard (SQL + Power BI) | *SQL+Power BI* [Project Link] **August 2025**

- Developed an interactive Coffee Shop Sales Dashboard using SQL for data cleaning, extraction, and transformation, and Power BI for visualization.
- The dashboard analyzed sales performance across multiple locations, product categories, and time periods, providing a centralized view of key business metrics.
- Identified top-performing products, peak sales hours, and low-performing categories, enabling data-driven decisions for inventory management and marketing optimization.

Fraud Detection Prediction with ML | *Python+Machine Learning* [Project Link] **October 2025**

- Developed a Machine Learning model to detect and predict fraudulent financial transactions using Python and Scikit-learn.
- Performed data preprocessing, feature engineering, and model evaluation through accuracy, precision, and recall metrics.
- Built an interactive Streamlit web app for real-time fraud prediction based on user-input transaction details.

Certifications

- | | | |
|--|--------------------------------|--|
| • IBM Certified – Data Science and Analytics | • Machine Learning | • Microsoft Certified AI and ML |
| • SQL for Data Science | • Python for Data Science | • Microsoft Certified Copilot |
| • Power BI | • Advanced Excel | • Microsoft Certified Cloud Administration & Engineering |
| | • Microsoft Certified Power BI | |
| | • Microsoft Certified Azure | |
